Hydrogen... the most abundant element in the universe is your ticket to a rewarding future. Every day there are reports of how hydrogen (produced by water electrolysis and renewable energy sources) is displacing fossil fuels, reducing greenhouse gasses, and helping to revitalize our planet.

Nel Hydrogen is the global leader in on-site hydrogen generation and the largest electrolyser manufacturer in the world. Armed with a full portfolio of water electrolyzers and hydrogen fueling station technologies, Nel Hydrogen is leading the charge into the new green hydrogen economy.

If you are driven by personal initiative combined with loyalty and commitment to your team and the ability to convert complex issues into simple solutions, then we want to talk to you. Help make the world a better place. Join a company that is on the cutting edge of new energy innovations, with an energized, progressive culture.

POSITION SUMMARY

An immediate opportunity exists for a qualified candidate with demonstrated project management experience and a proven track record to manage complex projects related to the siting of large-scale Hydrogen Equipment at customer sites. The successful candidate serves as part of the Project Management team and will work directly with customers (internal and external) to ensure deliverables fall within the applicable scope, schedule, and budget. They will coordinate with suppliers and stakeholders to ensure all aspects of each project are on track and will support hiring new talent as needed to fulfill project needs.

RESPONSIBILITIES:

- Support proposal development, assist with presentations, and participate in contract negotiations related to the acquisition of projects
- Manage all aspects of project communication and serve as project point of contact with customer to manage deliverables and scope
- Provide overall management of projects from concept to completion including planning, estimating, project controls, risk management, procurement, site integration, and closeout
- Develop and monitor project schedules, manage scope, and control project costs
- Coordinate internal resources and third parties/vendors for the successful execution of projects
- Oversee internal project performance (Key Performance Indicators), staffing needs, contract support, risk management (including safety concerns), and change management
- Adhere to project management policies and procedures, establish project controls, and implement the project execution plan
- Create and maintain comprehensive project documentation including customer deliverables
- Travel to client and project locations could be required

QUALIFICATIONS:

- Bachelor's degree in engineering or related field from an accredited university
- Minimum of 10 years of progressive Project Management experience, including 5 or more years of experience managing complex engineering projects
- Strong analytical and problem solving skills; must be capable of devising new approaches to problems encountered
- Project Management Professional (PMP) certification is a plus
- Familiarity with ERP systems is a plus
- Excellent client-facing and internal communication skills
- Excellent written and verbal communication skills
- Solid organizational skills including attention to detail and multitasking capabilities
- Strong working knowledge of Microsoft Office, including MS Project
- Capable of working well in a multi-disciplinary team environment
- Able to travel (<10%) as needed

The above statements reflect the principal functions of the position and shall not be construed as a detailed description of all work requirements that may be inherent in the job.

Nel Hydrogen provides comprehensive health and insurance benefits for its employees as well as a stock option plan. The Company offers competitive paid vacation time, sick leave, and holidays.

The Company has a published Code of Conduct that all employees are expected to follow.

Visas

- Nel will only employ those who are legally authorized to work in the United States. This is not a position for which sponsorship will be provided.
- Individuals with temporary visas such as E, F-1, H-1, H-2, L, B, J, or TN or who need sponsorship for work authorization now or in the future, are not eligible for hire.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, or any other characteristic protected by law. All employment is decided based on qualifications, merit, and business need.
