

## Position Description

**Position Title:** Project Manager  
**Location:** Remote in Southern California  
Los Angeles, Riverside, Orange, San Bernadino counties

### Position Summary:

The company is a frontrunner when it comes to the development of hydrogen fueling stations used for the refueling of hydrogen vehicles. The market for hydrogen stations will maintain its growth in the coming years, as large-scale production of hydrogen cars has been launched. NEL Hydrogen has positioned itself as a global player for the rapidly growing hydrogen economy.

An immediate opportunity exists for a qualified candidate with demonstrated project management, engineering experience and a proven track record in getting project executed on time and on budget. The successful candidate will work directly with customers, Nel's Danish back office and Nel's local service and commissioning team to ensure deliverables fall within the applicable scope, schedule, and budget. He or she will coordinate with suppliers and stakeholders to ensure all aspects of each project are on track.

### Responsibilities:

- Coordinate internal resources and third parties/vendors for the flawless execution of projects
- Ensure that all projects are delivered on-time, within scope and within budget
- Assist in the definition of project scope and objectives, involving all relevant stakeholders and ensuring technical feasibility
- Develop a detailed project plan to be shared with customers and project team to monitor and track progress
- Report and escalate to management as needed
- Manage the relationship with the end customer and all stakeholders
- Create and maintain comprehensive project documentation including customer deliverables
- Meet budgetary objectives and adjust project constraints based on financial analysis
- Develop project cost estimates to support Bid & Proposal activities
- Work in a disciplined manner and have a strong sense of safety and quality
- Visit project sites in Southern California to inspect contractor's work and witness specific project installation steps.

**Minimum Qualifications:**

- Bachelor's Degree in Engineering and or Project Management
- Proven working experience in project management / minimum of 5 years
- Excellent client-facing and internal communication skills
- Excellent written and verbal communication skills
- Solid organizational skills including attention to detail and multitasking skills
- Strong working knowledge of Microsoft Office, including MS Project
- Capable of working well in a multi-disciplinary technical team environment
- Able to travel as needed
- General broad technical understanding of a complex piece of equipment with several subsystems (hydrogen circuit, cooling system, electrical system)
- Be a team player with great coordination skills
- Be independent, flexible and have "drive"

**It would be beneficial to have:**

- General knowledge about ATEX zones / Classified areas
- General knowledge about standards and codes used within the hydrogen industry such as NFPA, the HGV series of standards, ASME etc.
- General knowledge about pressurized equipment
- Ability to review CAD-drawings and read P&ID's

**Education and/or Experience:**

- Bachelor's Degree in Engineering and/or Project Management
- Project Management certification is a plus
- Experience working in a commercial / industrial product development environment
- Experience working as project engineer on international level is a plus

**Skills & Proficiencies:**

- Developing and Tracking Budgets
- Supervision
- Technically highly skilled and problem solver
- Project Management
- Technical project engineering
- Process Improvement
- Planning
- Verbal / Written Communication
- Ability to be adaptable and deal with changing priorities
- Familiarity with ERP systems
- Demonstrated hands on implementation of Continuous Improvement

The above statements reflect the principal functions of the position, and shall not be construed as a detailed description of all work requirements that may be inherent in the job.

Nel Hydrogen provides comprehensive health and insurance benefits for its employees. The Company also offers competitive paid vacation time, sick leave, and holidays. The Company has a published Code of Conduct that all employees are expected to follow.

We are an equal opportunity employer, and all qualified applicants will be considered for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, or any other characteristic protected by law.
